

EUROPA ROLLER GARAGE DOORS

Make more of your garage.

Insulated roller garage doors, made to order. Simple remote control and a finish that feels at home.

Made to order

Tailored to your garage

Remote control

Two keyfobs as standard

Insulated curtain

For everyday garage use

Everyday access, made simple.

A practical upgrade to your garage, with an insulated roller curtain and electric operation controlled from a compact keyfob.

Made around your opening

Every Europa door is made to order. We survey your garage and agree the specification and installation details with you.

Remote control as standard

The Europa range includes remote operation with two keyfob transmitters, so everyday access is straightforward.

A finish for your home

Explore smooth and textured finish options with our team. We can help you choose a look that works with your property.

Smart home options

Ask about compatible smartphone control and linked products, including lighting. Available options depend on the system specified.
